A 10x10 grid with a 3x3 square in the center shaded gray. The grid is composed of 10 columns and 10 rows. The shaded area is a 3x3 square located in the center of the grid, spanning from column 4 to column 6 and row 4 to row 6. The unshaded area consists of the remaining 67 squares of the grid.

**Кроссворд**

1. Куда выбежали дети?
2. Что построили дети?
3. Чем завесили стол?

**2** **3**

- 2 3

The diagram shows a 10x10 grid of squares. A 2x2 block of squares is missing from the center of the grid, specifically from the 4th to 5th columns and 4th to 5th rows. This creates a frame-like shape with a central void.

A 10x10 grid with a 3x3 square in the center removed, leaving a frame of 1x1 squares.

[illegible]

- 2 3

The diagram shows a 10x10 grid of squares. A 2x2 block of squares is missing from the center, specifically the squares at positions (4,4), (4,5), (5,4), and (5,5) if the top-left square is (1,1). This creates a frame-like shape with a central void.

The diagram shows a 10x10 grid of squares. A 2x2 block of squares is missing from the center of the grid, specifically from rows 4 and 5, and columns 4 and 5. This creates a shape with a rectangular hole in the middle. The remaining squares form a frame around the hole, with additional squares extending from the top and bottom edges.

The diagram shows a 10x10 grid. A 2x2 block of cells is missing from the center, specifically the cells at (row, column) coordinates (4,4), (4,5), (5,4), and (5,5). This results in a shape that is 10 units wide and 10 units high, with a total area of 76 square units.
